DYNAMITE TOSSES TON-WEIGHT BOULDERS LIKE PEBBLES

—Photo by H. Oakman.

Thousands of tons of earth soar skyward as six tons of dynamite are exploded at the Bethlehem Steel iron mine at Marmora, Ont. The overburden of acres of earth and rock is being loosened by dynamite and removed by steamshovels to get at the deposit of iron beneath. Circled are boulders big enough to crush a house and tossed like pebbles by the explosion.

Farewell Service Held For Duwayne Atwood

Sunday evening in the Fourth Ward Church a testimonial service was held in honor of Duwayne Atwood with C. R. Wing in charge of the program. Frank Hicks opened the meeting with prayer, after which the choir under the direction of W. C. Stone and accompanied by Rojanea Bingham, sang two appropiate songs. T. Geo. Wood was the first speaker, followed by Bishop Snow, Duwayne, A. E. Atwwod, Mrs. A. E. Atwood. A male quartet, Gordon Snow, Gordon Cooper, Jess Gibb, and John Redd sang two selections. OCTOBER 4 TO 10

FIRE PREVENTION WEEK

Now is the time to start a good habit — fire prevention! Always be on the watch for fire hazards. Your Fire Department has a big job to do in its Fire Inspection Service and training and equipping firemen for adequate fire control.

But you must help. Fire feeds on careless deeds so help eliminate the common causes of fire.

PLEASE DO NOT:
LEAVE MATCHES WITHIN THE REACH OF SMALL CHILDREN
SMOKE IN BED OR DISPOSE OF CIGARETS CARELESSLY
PUT ASHES IN A WOODEN BOX OR PAPER CONTAINER
BRING GASOLINE OR KEROSENE INTO THE HOME
TAKE CHANCES WITH FAULTY ELECTRIC WIRING, FAULTY CHIMNEYS AND STOVE PIPES
ALLOW RUBBISH TO PILE UP IN BASEMENT OR ATTIC

Remember:
A careful person seldom has a fire; a clean orderly place seldom burns.

Hon. C. E. Gerhart, Provincial Secretary
A. E. Bridges, Fire Commissioner

Pameline Shaw, daughter of Mr. and Mrs. Wintson Shaw celebrated her 10 birthday on Monday with about 16 of her little friends. After the games which included a Treasure Hunt a very tasty lunch was served.

BIRTHS

Born to Mr. and Mrs. Bob Perrett, (Eleanor Smith), A girl, on Sept. 28th 28th.

Born to Mr. and Mrs. Donnal Sabey (Salt Lake City), a son, September 30.

Mr. and Mrs. Dan Holladay entertained their Study Class on Sunday evening, when Mrs. Noa ee Jones retold the very interesting story of the "Greatest Story Ever Written". After which the hostess served a very tasty lunch.

Fire Prevention

If every dollar that is lost by fire during every year in Canada could have been set aside for building homes the housing shortage would be no problem at all to our citizens.

Each year right here in Raymond many hard-earned dollars go to rebuild or repair the ravages of fire — much of which could be done away with if each and every person had a better understanding of fire prevention. This applys not only to men and women but to children too.

Each year one week is set aside by the government as national "Fire Prevention Week" throughout Canada. During this time everything possible is done to bring this vital subject clearly before the citizens and to educate them in the ways in which they can and should assist their local Fire Department to protect their possessions and the resources of Canada from destruction by fire.

We here in Raymond are very fortunate to have such a splendid group of volunteers to form our Fire Department and especially during this week we should do everything possible to acknowledge our gratitude to them for their efforts.

Little Terry Shaw, son of Mr. and Mrs. Wintson Shaw underwent an appendectomy in the local hospital last Wednesday. He is feeling fine now.

Mrs Lula Gibb and children of Taber were Sunday visitors at the home of her parents Mr and Mrs Wm Paris.

Friends and neighbors are admiring a beautiful gladiola grown by Mrs. Zelma Innes. It is a flecked pink and has 17 blossoms on it. The larger ones at the bottom of the stalk measures 5 inches accross.

A Message From The Young Ladies Stake Board

Our Summer Camp is going to be built, ready for our girls next summer with your help and co-operation. We have the site (a beautiful place); the lease has been signed, stamped and approved by our Stake President as well as the Government Officials.

We need more money and if anyone wants to help a good cause donations will be gratefully accepted.

On Friday, November 13th at the Second Ward Church we are holding a Luncheon, Pantry and Rummage Sale and Bazaar. Any donations are going to be so welcome and we are especially asking for any old clothes you or your family has outgrown, or anything that will sell at a Rummage Sale. If you will call any of our Young Ladies Board Members we would be happy to call and pick up anything you might have.

We are also auctioning off some fine quilts.

We are sincerely grateful for all the help given in the past.

Zettella G. Taylor.

Safety and Your Child

Protection, defence, security.

Those are the words that the dictionary use to describe SAFETY.

In all things that we do there is an element of chance but we protect ourselves by putting up a kind of defence to add to our security by being just plain careful. We older people have the knowledge and experience to guard against mishap but youngsters do not, so we have a responsibility to teach them and to help guard them from accidents.

Right now many people throughout our community are disregarding this responsibility to such an extent that, unless something is done to rectify the situation, a traffic fatality will result. We have been told several times in recent weeks about the disregard displayed by the children in town for the heavily loaded trucks on the highway and roads — especially in the evening when visibility in not so good.

There are all kinds of truck drivers good and bad, careful and careless, cautious and reckless — but they alone cannot be held responsible for the safety of your child. Not one driver would like being the cause of your child's broken body or death but some times they have no choice.

Every parent should form a mutual agreement with every driver of every motor vehicle to protect the life and limb of their most priceless possession — their children. Do your part — teach them the facts of safety.

Bangs Disease and Undulant Fever

Our friend Peter Jamieson thought our readers would be interested in this article on Bangs Disease and so did we, so here it is.

—

DISTRICT AGRICULTURIST,
COURT HOUSE, LETHBRIDGE

RE: BANG'S DISEASE (Contagious Abortion) (Bovine Brucellosis.)

What It Is And How Spread:

This disease of cattle is present in some of the cattle herds in the Municipality. It causes great losses, as infected cows abort at 5 to 8 months. Cows usually abort once or twice. There is always a drop in milk production. It is a germ disease and spreads from one cow to another, principally at the time of abortion.

Cure or Prevention:

There is no cure, as a cow infected with Bang's Disease usually carries abortion germs the rest of her life.

PREVENTION: can be obtained only by vaccinating heifer calves at 6 to 9 months of age, or older, at the discretion of the veterinarian. This build up a good resistance and by vaccinating heifer calves every year, one has a good disease-free herd in 5 to 6 years These can be exported to the U.S.A. up to 22 months after vaccination without blood test.

UNDULANT FEVER IN MAN:

This dreaded disease of humans has occurred in this district. Infection can occur through cuts on the hands when handling Bang's infected cows, especially at calving time, or by drinking milk from infected cows.

Other Important Information:

Vaccine is supplied through the Alberta Department of Agriculture. This vaccine must be handled with care, thus it is only allowed to be used by veterinarians who will identify the calves with an ear tag and issue a certificate. It is of the utmost importance to have Bang's Disease-free herds to prevent cases of undulant fever and calf losses from this costly disease. Start vaccinating now. Buyers are looking for vaccinated cattle; thus, they are worth more money.

We offer you a vaccination program. Your Veterinarian will undertake to vaccinate heifer calves for $1.00 per head for the first 10, and 40¢ per head thereafter, which is the rate agreed upon by the Western Stock Grower's Association. However, a veterinarian cannot be expected to make a 50 mile trip to vaccinate two calves, therefore interest your neighbors and get applications in to save mileage. Every cattle owner in the disrict is urged to co-operate in this program, by sending in the attached form as soon as possible so that his calves will not be missed when the Veterinarian is in the district.

Do not wait until you have aborting cows and heavy losses, BUT START NOW and build up a BANG'S RESISTANT HERD.

I made a catalogue of autumn things
Today: wild geese that soar on outspread wings;
Dark, velvet dahlias still eluding frost
Purple and garnet, these are not yet lost;
Bright pageantry of turning leaves that flame
With beauty which no facile words can name;
Blue sky with color so cerulean there
I walk with azure glory everywhere,
Uplifted in each lovely, autumn hour
To feel the presence of a Higher Power.

Barnyard Note

Today the farmer bales his hay
It takes less room the modern way;
But it must make his children groan
To romp on hay as hard as stone.

Coasting on a reputation is always an uphill job.

A man might need that many new hairs each year but you won't need a new press drill for many years to come if you get one of the JOHN DEERE PRESS DRILLS we have for sale. They're in excellent condition.

Those who seek education in the paths of duty are always deceived by the illusion that power in the hands of friends is an advantage to them.

QUESTIONS and ANSWERS about *Cancer*

QUESTION: How does early diagnosis save lives?

ANSWER: By enabling treatment to be begun before the cancer cells have spread and while there is hope of removing all of them from the body.
